Subject: Medical Internship

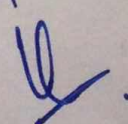

Dear Madam,

This is with regard to those medical students (MBBS/BDS) who sit for RCSC examination without the completion of their internship. Since internship is the part of their professional course, the BMHC would like to inform that no medical student will be provided with Full Registration Certificate starting from 2018 without producing internship completion certificate. The Provisional Registration Certificate for internship that is valid for one year will be provided for undergoing the internship program at Bhutan but this provisional registration certificate will not be the substitute for full registration certificate.

Therefore, BMHC would like to suggest that DAHE should verify the registration certificate of the BMHC before handing over the medical graduate to RCSC and also to inform the same to the ongoing and new medical students.

Thanking you
 Yours sincerely

 Sonam Dorji
